F.No. D-130024/07/2022/NMC/DMMP/

Date: 4<sup>th</sup> October, 2022

To

The Directors/Principal/Deans of  
Medical Colleges  
As per list attached.

**Sub: Implementation of Hospital Management Information System (HMIS) in all medical colleges-regarding.**

Ref. No.: (i) NMC's letter No. D-130024/07/2022/NMC/DMMP/028293 dated 1.8.2022.  
(iii) NMC's letter No. D-130024/07(01)/2022/NMC/DMMP/028293 dated 12.8.2022  
(iv) NMC's letter No. D-130024/07(02)/2022/NMC/DMMP/028293 dated 20.8.2022

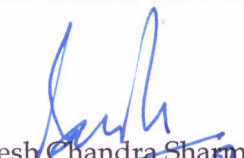

Dear Director/Principal/Dean,

This is in continuation of various letters of NMC on above stated subject. Although the co-operation from Medical Colleges for implementation of IT initiatives of NMC is encouraging. However, in spite of several follow up by staff/officers of NMC, some of the Medical Colleges have not complied the directions.

2. NMC has made implementation of HMIS in all Medical Colleges mandatory. For those Medical Colleges having prior existing HMIS, API of patient registration module needs to be shared with NMC. But till date, very few Medical Colleges have shared the details as per requirement of API. Hence, it is directed to all remaining Medical Colleges to share the details of API at: [vaibhav.khokhar@nic.in](mailto:vaibhav.khokhar@nic.in), [bansal.ankita@nic.in](mailto:bansal.ankita@nic.in) with a copy to [director.nmc@nmc.org.in](mailto:director.nmc@nmc.org.in) by next week. The Medical Colleges who do not have HMIS are directed to start the HMIS in their MCH/s by 10<sup>th</sup> October, 2022 without failure.

3. The NMC's team has been interacting with all the Medical Colleges through all mediums of communication such as e-mail/whatsapp/sms/telephonically. Despite all the above engagement, some Medical Colleges are paced ahead in HMIS API creation and sharing of API while a few have still not started at all.

4. It is therefore instructed to implement HMIS and share API of patient registration module as directed above in a time bound manner not later than 10<sup>th</sup> October, 2022. Failure in this would be viewed seriously. It is also informed that for any new applications of renewal, recognition, continuation of recognition, establishment of new medical college, increase in UG/PG seats, it is must for Medical College to have a fully functioning HMIS with OPD/IPD registration module, casualty and emergency module, OT-minor and major surgeries module, LMIS (Laboratory Management Information system) module depicting daily registration of lab tests done including pathological procedures, radiological procedures, registration module, obstetrics and gynaecology ward module depicting registration of LSCS and normal deliveries module.

  
(Dr. Suresh Chandra Sharma)  
Chairman, NMC  
*04.10.2022*

Copy forwarded for necessary information and necessary action to:

1. The ACS/Principal Secretaries/Secretaries, Deptt. Of Medical Education of all States/UTs - with a request to get HMIS started in all medical colleges at the earliest.
2. DDG, NIC, Shri Sunil Kumar - with a request to expedite testing of HMIS APIs.
3. DME of all States/UTs - with a request to get HMIS started in all medical colleges at the earliest.
4. PPS to President/Members, UGMEB, PGMEB, MARB, EMRB.
5. PPS to Secretary, NMC.
6. Shri Tarun Kumar Goel, Senior Technical Director, NIC.
