### CONDITIONS

1. The licensee shall intimate the licensing authority fifteen days before conducting fireworks display:
  - a. Readiness of the site and his preparedness
  - b. Names, addresses and contact number of fireworks display operators, fireworks display assistants, monitors and loaders.
2. The display fireworks shall be stored in a licensed magazine and displayed only at the places shown in the plan attached to the licence. The magazine shall be at least two hundred meters away from the display site.
3.
  - (i) Display fireworks shall be brought and kept in magazine well in advance.
  - (ii) Samples of display fireworks shall be drawn by the licensing authority and sent to Chemical Examiner's Laboratory of the State Government for analysis to detect the use of prohibited chemicals in manufacture of display fireworks.
4. A minimum distance of one hundred meter shall be maintained between the spectators and the area where the display is carried out by effective barricading.
5.
  - (i) Only fireworks approved by Chief Controller for display shall be used for display.
  - (ii) Display fireworks shall be procured from person holding valid licence granted to manufacture such fireworks.

(iii) Fireworks before being taken for display shall be examined and defective fireworks shall not be used for display.

6. A shed for assembling of the fireworks for display purpose shall be at a distance of min twenty meters from fireworks storage magazine and minimum onehundred meters from the display site.
7. No fireworks shall contain chlorate or prohibited explosives mixture.
8. No fireworks shall contain antimony, lithium, mercury, arsenic, lead and strontium chromate or any other chemicals prohibited under law for time being in force.
9. No display of fireworks shall be carried out when the wind velocity exceeds 50 kilometer per hour or the control over spectators has been lost.
10. Only minimum persons shall be employed for assembling and display of fireworks.
11. The site shall be constantly supervised and the persons employed shall wear protective clothes, ear defenders, safety glasses and other protective devices.
12. Once fireworks taken to the site, the site shall not be left unattended or unprotected.
13. No fireworks shall be ignited inside of or closer than 15 meters of any tent, trailer, canvas shelter of vehicle.
14. No fireworks shall be ignited within 250 meters of a hospital, nursing home, schools unless consent from local authorities and the owner or its agent is obtained.
15. Adequate firefighting equipments, facilities and first-aids shall be provided in consultation with the fire service authorities.
16. After the display, the wastes and remnants shall be carefully collected, removed from the site and destroyed by burning under supervision of a competent person, taking due precautions.
17. The licensee shall follow the provisions of the Act and these rules made there under as otherwise applicable.
18. No electrical wire shall be allowed within 15meter of the area where the fireworks are laid down.
19. Half the length of the iron mortars used for display shall be buried in the ground. The mortars of the same size shall be grouped and spaced not less than 50cm apart. Groups of different size mortars shall be placed at least 10 meter apart. The mortars or frames shall be securely anchored to the ground.

**Note:** Mortars shall be inspected prior to placement. Defective mortars shall not be used. Mortars shall be positioned and spaced so that shells are propelled over the safe area and to afford maximum protection to the Fireworks Display Operator/ Fireworks Display Assistant and the loader.

20. Before starting the display it shall be ensured that the fireworks explode and the debris fall in the safe area.
21. No matches, lights or any article of flammable or hazardous nature liable to cause fire or explosion shall be brought or kept in the licensed premises except for firing purpose only.
22. No tools, implements etc. made of iron or steel except mortars used for display shall be kept at any time in the premises and not person on the licensed premises shall have any iron or steel in his possession or on his boots or shoes.
23. The licensee shall keep records and accounts of all fireworks received, used and stock on hand.
24. The licensee shall follow the local bye-laws at the place of storage and display and obtain necessary permission whenever required.
25. The kinds and quantities of explosives remaining after the expiry of licence shall be intimated to the licensing authority and the licensee shall abide by the instructions of such authority regarding disposal of explosives.
26. If the licensing authority directs the licensee by notice in writing to make any additions or alterations, which, in the opinion of such authority, is considered necessary for the safety, of the

premises or of the person working therein or the spectators the licensee shall execute such additions or alterations within such period as may be specified.

27. The licensee and the employee shall be conversant with procedure to be taken during the emergency within the premises.
28. Free access to the licensed premises shall be given at all reasonable times to any inspecting or sampling officer and every facility shall be provided to the officer for ascertaining that the provisions of the Act, these rules and the conditions are complied with.
29. If the licensing authority informs in writing, the holder of the licence to execute any repairs or to make any additions or alterations to the licensed premises or machinery, tools or apparatus or carry out recommendations, which are in the opinion of such authority may pose unacceptable risk and so necessary for the safety of either on-site or off-site of the premises or persons, the holder of the licence shall execute the recommendations and report compliance within the period specified by such authority.
30. Accidents by fire or explosion and losses, shortage or theft of explosives shall be immediately reported to the nearest police station and the licensing authority.
31. Fireworks and pyrotechnic materials shall be loaded into mortars only prior to display. There shall be no reloading of any fireworks and pyrotechnic materials during fireworks display.
32. The fuse shall be fitted in such a way that minimum 15 centimeter of the fuse protrudes out of the shell after it has been inserted into mortar.
33. In the event of misfire of fireworks, no person shall approach or be permitted to approach the display site until 30 minutes after igniting the fireworks.
34. Mock drill shall be conducted at least two days prior to the actual display of fireworks, to assess the preparedness of the onsite emergency plan under the supervision of the licensing authority.
35. The persons engaged by the licensee for conducting of fireworks display shall wear distinct colour jacket with fluorescent strips for easy identification and shall have identity cards issued by the licensee.
