Practice of Modern Medicine: Mandatory of Registration

Kerala State Medical Council Council of Modern Medicine registration is mandatory to practice modern medicine in the state. The registration is made mandatory under the National Medical Commission Act, 2020 and its accompanying regulations and the Kerala State Medical Practitioners Act, 2021. Practicing by displaying unregistered and unrecognized qualifications is punishable. The council is empowered to take disciplinary action against hospital managements advertising in newspapers and social media with pictures and qualifications of doctors against the rules of the National Medical Commission.

Medical practitioners should display the State Medical Council registration number, registered qualifications and registration certificate (legally attested copy) issued by the Kerala State Medical Council at the place of their practice. Only the qualifications, additional qualifications and registration number registered with the State Medical Council should be used in the place of practice, medicine prescriptions, letterpads and seals.

The eligibility of modern medical practitioners serving in medical colleges, hospitals and clinics in Kerala should be verified by checking the original registration certificate issued by the Kerala State Medical Council. Attested copies of certificates / legally attested copies should also be kept in the institution. Display boards in all medical colleges, hospitals and clinics should include the name, qualification, additional qualification registered with the Medical Council and registration number of the medical practitioners.

All heads of institutions should submit the list containing name, registration number, qualifications and additional qualifications of medical practitioners working in modern medical institutions to the Kerala State Medical Council at ksmcdactorlist@gmail.com before October 31.
